

The **TeamCard Web Award** facility is a secure webpage hosted on the Internet to provide the basic points award function required to participate in the TeamCard Loyalty Program.

It requires no installation and will be accessible on most Internet connected computers using modern web browsers.

Clients will be given their own username and password and all transactions are encrypted before being submitted to the TeamCard secure transaction host.

Remote Points Award

To award points please do the following

- Enter the card number, press the Submit button
- Check the cardholder details are correct
- If correct enter the points value, cash value and Terminal ID and press the Submit button

Cardnumber 00 9999 9999 9999

Transaction Details

Amount (£)

Points

Terminal ID 17135543

Reference

Cardholder Identification

After Login the user enters a unique TeamCard card number into the boxes provided. The Cardholder name is then displayed for verification

Points Award

Once the cardholder is identified the user enters the sale amount and number of points. A sale reference from the clients EPOS system can also be entered for cross-checking purposes. Pressing the SUBMIT button will then action the Award to the cardholder.

Minimum Requirements

PC Running Microsoft Windows 2000 / XP / Vista

Broadband Internet Connection

Microsoft Internet Explorer 6.x or above or Firefox 1.x or above

Applicability

Generally applicable where either:

- (i) The customer is not present during the sale process (phone sale or manually recorded award for back-office batch entry)
- (ii) The customer is present but speed of the sale process is not critical and the frequency of TeamCard transactions is low
